June 18, 2018

**TO: Firestone Building Products Customers
Re: Price Increase Announcement**

The cost of steel and aluminum continues to increase sharply in 2018. The recent tariffs imposed on foreign steel and aluminum have caused a surge in domestic demand thus abruptly increasing our costs. Therefore, Firestone Building Products must implement a price increase on the following products effective June 19, 2018.

<u>Product Categories</u>	<u>Increase up to:</u>
<u>Steel</u>	10%
<u>Painted Aluminum</u>	13%
<u>Anodized Aluminum</u>	16%

Existing documented quotes submitted prior to June 19th will be honored. All other orders will reflect the price increase.

On behalf of Firestone Building Products, I appreciate your continued support of our high-performance building products and warranty services. If you have any questions, please contact your local Firestone sales representative or Regional Business Manager.

Sincerely,

Anthony Salvatore
Vice President, Sales
