ON TOP OF YOUR BUILDING ENVELOPE NEEDS

# FALL PROTECTION PRODUCTS & SERVICES

As authorized representatives of Diversified Fall Protection, MWA provides a full offering of fall protection products and services.

Maintaining and implementing safety anchorage is an ongoing process to ensure compliance with regulations established by ICC, MiOSHA, ANSI-14.1 and ASME. MWA and our manufacturing partners are committed to providing informative consultation, optimal design engineering and unsurpassed customer service to resolve all aspects of your industrial, confined space, and building's fall protection needs.

Whether you are a building owner, plant safety director, property manager, architect, building designer or contractor, let MWA provide you with turnkey fall protection solutions.
